

EDUCATION

. Fergusson College Pune
Master of Science, CGPA: 9.63

India

PROJECTS

- e Smart Campaign Targeting System | GenAI + Analytics
 - o Built a GenAT tool to analyze customer interactions, extract issues, find leads, and generate targeted telecom offers.
 - o Developed FastAPI—React dashboards with clear trends, KPIs, and strong LLM-based Q&A; outputs using Ollama.
- e Fake News Detection System | Multimodal ML:
 - o Built a multimodal model using text, OCR images, Whisper audio, and video inputs with optimized pipelines.
 - o Achieved 95% accuracy with Random Forest and deployed a real-time Flask—React system with a scalable setup.
- e SmartCareer | Resume Recommender:
 - o Designed a resume parser to extract skills, classify IT/Non-IT profiles, and predict skills using a skill check.
 - o Integrated Adzuna API for job listings and performed ML-based skill-gap checks with automated outputs.
- e EMR System (Live Project) for Physiotherapy Department | MERN Stack:
 - o Developed a secure MERN app to digitize physiotherapy records with structured media uploads and robust storage.
 - o Led ReactJS frontend with clean UI, proper validation, and full patient data management ensuring clinical use.

RESEARCH

. Scopus Indexed Journal Publication Pune
Research Author Apr 2025

India

- o Authored research paper "ChatGPT's Impact on Student Learning: Enhancing Education or Encouraging Dependency?", selected for publication in a Scopus Indexed Journal.
- o Collected and analyzed responses from 300+ students to study ChatGPT usage patterns and learning behavior.
- o Applied Machine Learning and statistical analysis to evaluate education outcomes and trends.

TECHNICAL SKILLS

- **Programming & Languages:** Python, SQL, C (Basic)
- **Machine Learning & Data Science:** Classification, Regression, Clustering, Model Evaluation, Feature Engineering
- **Libraries & Frameworks:** Pandas, NumPy, scikit-learn, TensorFlow, Flask, Matplotlib, Seaborn
- **Databases & Tools:** MySQL, PostgreSQL, Git, Power BI, Jupyter, VS Code

CERTIFICATIONS

- e AI GATI Hackathon: Top 12 Finalist (2024): AI-based challenge participation, Machine Learning.
- e Machine Learning: Stanford University (2024): Supervised/Unsupervised learning, Neural Networks, AI.
- e Data Analytics: Google (2023): Data-driven decision-making, statistical analysis, Visualization.
- e Website Design: Internship Studio (2022): HTML, CSS, responsive web development, Frontend.

ACHIEVEMENTS AND ROLES

- Secured First Place in Avishkar (Engineering & Technology) and qualified for the State-level competition.
- Organized expert sessions, workshops, and technical events as Head of the Data Science Club, Fergusson College.
- Served as Event & Sports Coordinator at Fergusson College, managing academic, sports, and cultural events.
- Represented Pune City as a State-level Handball Player in official inter-district_ tournaments.

WORK EXPERIENCE

. Nearverse Labs Remote
Data Analyst Intern Oct 2025 — Present

India

- o Developed web scraping pipelines to extract cricket statistics from ESPNcricinfo for Play1l's NFT platform.
- o Built team scoring algorithms using statistical modeling and Monte Carlo simulations for performance analysis.
- o Designed NFT card tier system through percentile-based classification and data-driven variance optimization.
